

Active communities and projects

A growing number of communities and projects from the Space domain are currently using the platform. The following list is in alphabetical order. Please note that the links marked *internal* are only accessible after successful [registration](#) and login.

- CoDev Community (examples, manual, support, legal matter, etc.) → [CoDev Community \(internal\)](#)
- OPEN Community (OPEN, OPEN-M, OPEN-Lib, etc.) → [OPEN Public Website](#) and → [OPEN Community Website \(internal\)](#)
- SIM Community (UMF, SMP2, ECSSMP, etc.) → [SIM Community \(internal\)](#)
- SST Core Community (SST Core etc.) → [SST Core Community \(internal\)](#)

Please submit a [merge request \(internal\)](#) if you would like to see your community listed above.

And last but not least, the [Space CODEV Community](#) needs your support!
